AIR NAMIBIA'S A319 COMPLETES SCHEDULED MAINTENANCE

Air Namibia is pleased to announce that one of our Airbus A319 aircraft which was undergoing heavy scheduled maintenance checks will start operating effective 29 July 2019. This will bring to 3 out of 4 of our A319's in service.

With this development, we will be re-introducing some of our flight frequencies which were withdrawn due to a reduced number of aircraft in the fleet. Details of flights to be re-introduced are as follows;

1. Windhoek – Johannesburg: we currently operate 14 flights per week; this will be increased to 21 weekly flights, as per the normal published schedule.
2. Windhoek – Cape Town: we currently operate 7 flights per week; this will be increased to 14 flights per week, in line with our normal published schedule. 7 of the rotations will be direct and non-stop while the other 7 rotations go via Walvis Bay.
3. Eros – Ondangwa: we will re-introduce the two flights per day as per schedule, one flight in the morning and the second flight in the late afternoons.

"We are also happy to announce that our domestic flights to Luderitz and Oranjemund will effective 29 July 2019 be operated from Eros Airport, and no longer from Hosea Kutako International Airport. This change will enable our esteemed clients to connect the same day in both directions via Eros, to/from Luderitz / Oranjemund and Ondangwa. Days of operation will remain the same, offering three weekly flights on Tuesday, Thursday, and Saturday," Mr. Xavier Masule, Interim Chief Executive Officer proudly said.
