## Tender Notice for Tourism Lodge Concession – White Sands on the Kavango River inside Bwabwata National Park

---

The Bwabwata National Park is situated in north-eastern Namibia, and consists of all the land between the Kavango and Kwando Rivers in Namibia, plus the area known as Mahango. The Park is very significant for the conservation of biodiversity in Namibia as it protects some of the last remaining riparian forests along the Kavango River, and also provides formal conservation status over a large portion of the Kwando River. The White Sands area is situated within the multiple-use zone of the Park, directly opposite and downstream from Popa Falls on the Kavango River.

The Kyaramacan Association has been awarded a 20-year head concession contract for the White Sands – N//goabaca Tourism Lodge Concession by the Ministry of Environment & Tourism (MET). The Kyaramacan Association, assisted by MET, now seeks proposals from private parties to help develop and implement the concession. Interested parties are invited to register for the tender process and obtain the request for proposal (RFP) document.
